

## 2023 - 2024

	Who we are  An inquiry into the nature of the self; beliefs and values; personal, physical, mental, social and spiritual health; human relationships including families, friends, communities, and cultures; rights and responsibilities; what it means to be human.	Where we are in place and time An inquiry into orientation in place and time; personal histories; homes and journeys; the discoveries, explorations and migrations of humankind; the relationships between and the interconnectedness of individuals and civilizations, from local and global perspectives.	How we express ourselves  An inquiry into the ways in which we discover and express ideas, feelings, nature, culture, beliefs and values; the ways in which we reflect on, extend and enjoy our creativity; our appreciation of the aesthetic.	How the world works  An inquiry into the natural world and its laws; the interaction between the natural world (physical and biological) and human societies; how humans use their understanding of scientific principles; the impact of scientific and technological advances on society and on the environment.	How we organize ourselves  An inquiry into the interconnectedness of human-made systems and communities; the structure and function of organizations; societal decision-making; economic activities and their impact on humankind and the environment.	Sharing the planet  An inquiry into rights and responsibilities in the struggle to share finite resources with other people and with other living things; communities and the relationships within and between them; access to equal opportunities; peace and conflict resolution.
<b>Grade 6</b>	<b>Unit 5:</b> The effective interactions between human body systems contribute to our well-being		<b>Unit 1:</b> Visual arts provide us with multiple perspectives.	<b>Unit 6 :</b> Survival necessitates adaptations and resourcefulness	<b>Unit 2:</b> Government systems shape the lives of citizens	<b>Unit 3:</b> Populations migrate in response to challenges and opportunities
<b>Grade 5</b>	<b>Unit 2:</b> People can take ownership of their learning by thinking in a range of ways	<b>Unit 5:</b> Space exploration leads to discoveries, opportunities and new understanding	<b>Unit 6:</b> Advertising creates messages to influence individuals and societies	<b>Unit 1:</b> Human lives are impacted by natural disasters	<b>Unit 4:</b> Industrialization affects the evolution of a society	<b>Unit 3:</b> Human actions challenge our oceans' ecosystems
