## **St. Anthony Elementary Mission Statement**

Our mission at St. Anthony School is to nurture intellectual curiosity through an inquiry-based approach to learning where parents, community members and staff work in unison. Students will develop their personal and social skills through an international mindset in a peaceful, safe and bilingual environment that celebrates different learning styles.

In keeping with our overall objective of raising all of our students to the highest levels of their capabilities and embracing the importance of lifelong learning, our aim is to have our students graduate from St. Anthony School and succeed as global thinkers and doers at the next level of their education and beyond.

## **International Baccalaureate Mission Statement**

The International Baccalaureate® aims to develop inquiring, knowledgeable and caring young people who help to create a better and more peaceful world through intercultural understanding and respect.

To this end the organization works with schools, governments and international organizations to develop challenging programmes of international education and rigorous assessment.

These programmes encourage students across the world to become active, compassionate and lifelong learners who understand that other people, with their differences, can also be right.

---

## IB Learner Profile

The aim of the IB programme is to develop internationally minded people who, recognizing their common humanity and shared guardianship of the planet, help create a better and more peaceful world.

### IB learners strive to be:

**Inquirers** They develop their natural curiosity. They acquire the skills necessary to conduct inquiry and research and show independence in learning. They actively enjoy learning and this love of learning will be sustained throughout their lives.

**Knowledgeable** They explore concepts, ideas and issues that have local and global significance. In so doing, they acquire in-depth knowledge and develop understanding across a broad and balanced range of disciplines.

**Thinkers** They exercise initiative in applying thinking skills critically and creatively to recognize and approach complex problems, and make reasoned, ethical decisions.

**Communicators** They understand and express ideas and information confidently and creatively in more than one language and in a variety of modes of communication. They work effectively and willingly in collaboration with others.

**Principled** They act with integrity and honesty, with a strong sense of fairness, justice and respect for the dignity of the individual, groups and communities. They take responsibility for their own actions and the consequences that accompany them.

**Open-minded** They understand and appreciate their own cultures and personal histories, and are open to the perspectives, values and traditions of other individuals and communities. They are accustomed to seeking and evaluating a range of points of view, and are willing to grow from the experience.

**Caring** They show empathy, compassion and respect towards the needs and feelings of others. They have a personal commitment to service, and act to make a positive difference to the lives of others and to the environment.

**Risk-takers** They approach unfamiliar situations and uncertainty with courage and forethought, and have the independence of spirit to explore new roles, ideas and strategies. They are brave and articulate in defending their beliefs.

**Balanced** They understand the importance of intellectual, physical and emotional balance to achieve personal well-being for themselves and others.

**Reflective** They give thoughtful consideration to their own learning and experience. They are able to assess and understand their strengths and limitations in order to support their learning

---

## Introduction to Assessment

We believe that assessment is integral to the mission of St. Anthony. It is a continuous process, which guides teaching and learning through adherence to the requirements of both the Primary Years Programme (PYP) as well as provincial standards set forth by the Ministère de l'Éducation et de l'Enseignement supérieur (MEES).

The focus of assessment in an IB Primary Years Program school is to help students develop the understanding of concepts, the acquisition of knowledge, the mastering of skills and the decision to take action. Students, parents, staff and administration must have a clear understanding of what is being assessed, the criteria for success and the method by which the assessment is made. Active involvement of both students and teachers results in meaningful and accurate assessment.

Assessment information must be shared in a forthright manner with all stakeholders and used to evaluate student progress and/or the effectiveness of the program.

## Purpose of Assessment (Connection with PYP Assessment)

The purpose of assessment at St. Anthony is to:

1. provide timely feedback reports to students and parents on student learning
2. ensure that teaching and learning follows and respects the IB Primary Years Programme's objectives
3. improve student learning

The results of these assessments are shared with students and parents. Teachers analyze the body of evidence provided by assessment data to help design learning experiences for the student.

Teachers and students also make use of assessments within PYP Units of Inquiry to analyze student development of unit knowledge, skills and understandings.

These assessments:

- reflect input from students as well as staff
- focus on student understanding of the central idea (summative)
- are continuous throughout the inquiry (formative)
- launch the planning process
- provide opportunities for reflection on the process
- show evidence of students' understanding and thinking
- allow students to express different points of view and interpretations
- are developmentally appropriate
- highlight student strengths
- address a range of needs and learning styles
- provide opportunities for differentiation

Teachers use a range of methods to document student learning as a means of assessing student understanding.

---

Our assessment policy at St. Anthony is currently being updated and developed to meet both the requirements of the IB Primary Years Programme (PYP) and the Quebec Education Plan (QEP). This policy will continue to evolve as we apply for authorization in October 2019 and become an authorized PYP elementary school in a province where inquiry takes place in two languages.

### **The PYP Model Overview:**

Enhanced PYP, October 2018

### **Vision Statement:**

At St. Anthony School, we value the importance of stimulating learning partnerships amongst students, teachers, parents and the community. We believe a child's elementary school life, in a safe and caring environment, lays the foundation for the development of a positive attitude towards lifelong learning within a global mindset.

All students are encouraged to aspire to high individual academic standards through our early immersion model in language arts, mathematics, science and technology, social studies, music, ethics and religious culture, drama and physical education.

We believe that all students can succeed to the best of their ability by encouraging open-mindedness, risk taking, being knowledgeable and inquisitive. By cultivating these abilities, our students will become caring and active learners helping create a more peaceful world by demonstrating intercultural understanding and respect.

---

## Educational Project (2015-2020)

The Ministère de l'Éducation et de l'Enseignement supérieur has mandated that all schools address certain areas in their respective School Success Plans. These goals are also aligned with the Strategic Plan of the Lester B. Pearson School Board. Within this context, there are particular goals that are relevant to evaluation and assessments.

There are three specific indicators and targets in each of the three following strategic directions:

- Improving Achievement
- Ensuring Wellness
- Strengthening Engagement

Progress towards a wide range of goals within these strategic directions is measured by certain means of evaluation:

- PM Benchmarks, GB+
- prime diagnostic test
- student individual education plan
- varied evaluation practices
- reflection protocols of students and teachers
- formal student reflection at the conclusion of each IB unit, shared with parents
- school board formative assessments
- school board and/or MEES exams
- providing timely feedback
- recognition of elements of learning (formal and informal)

### Perspective on Assessment

St. Anthony has to deliver the curriculum outlined by the MEES which is divided into general competencies, broad areas of learning and subject areas. For each of these elements, a set of competencies and clear evaluation criteria are described in the QEP (Quebec Education Program). According to this document, evaluation is the process whereby judgment is made on a student's learning on the basis of information gathered, analyzed and interpreted for the purpose of making pedagogical and administrative decisions (Ministry of Education Policy on Evaluation).

St. Anthony also offers the Primary Years Programme (PYP) issued from the International Baccalaureate (IB). Assessment is integral to all teaching and learning. It is central to the PYP goal of thoughtfully and effectively guiding students through the elements of learning: the acquisition of knowledge, the understanding of concepts, the mastering of skills and the decision to take action. The prime objective of assessment in the PYP is to provide feedback on the learning process (Making the PYP Happen, December 2009).

---

## Assessment Practices

Our assessment practices inform us of what students know, serve to collect and analyze data, and communicate about assessment. It describes the progress of the students' learning, identifies areas for growth and contributes to the efficacy of the programme.

**Assessing:** How we discover what the students know and have learned

Assessment in the classroom includes:

- Collecting evidence of prior knowledge following provocation using:
  - individual responses
  - anecdotal note-taking
  - observations
  - class discussions
  - technology
  - photographs
- Conferencing:
  - peer
  - student/teacher
  - student/parent
- Provide opportunities to reinforce or extend the learning through:
  - field trips
  - guest speakers
  - parents and community members
  - partnerships within our community and beyond
- Using and developing rubrics to provide students with clear expectations
- Keeping records of formative assessment such as:
  - photographs
  - quizzes
  - tests
  - reading comprehension
  - journal entry
- Differentiation according to student needs (UDL, Google Read&Write)
- Summative assessments:
  - common exams (MEES, board exams, grade level)
  - oral presentations (interdisciplinary, group or individual)
- Engaging students in reflecting on their learning

## Recording: How we collect and analyze the data

Making the PYP happen: A Curriculum framework for international primary education, p. 48

Assessment strategies and tools					
Assessment tools \ Assessment strategies	Rubrics	Exemplars	Checklists	Anecdotal records	Continuums
Observations	✓		✓	✓	✓
Performance assessments	✓	✓		✓	✓
Process-focused assessments	✓		✓	✓	✓
Selected responses		✓	✓		✓
Open-ended tasks	✓	✓		✓	✓

Standardized assessments are used as part of the school assessment policy to gain as much information as possible about the student, the PYP and the QEP.

## Reporting: How we communicate about assessment

Reporting to parents, students and teachers occurs through:

- **Curriculum evening:** a meeting held for parents each year at St. Anthony within the first week of school. They are mandatory for all classroom teachers. This form of conference is intended to provide an overview of the upcoming school year as well as the IB units explored. Formats vary and may include individual classroom and/or grade-level presentations. The following topics are emphasized:

- curriculum
- class outline
- grading
- PYP elements
- classroom expectations
- communications with parents
- schedules and routines
- tips for student success

- 
- **IEP** (individualized education plan) meetings are held at least once a year between parents, teachers and resource to discuss the students' goals and progress, as well as any adaptations or modifications required for student success within the QEP and PYP curriculums.
  - **Interim report** is the first formal communication of the year between school and parents. It is sent home to update parents on whether their child needs improvement or has had a satisfactory start to the year.
  - **Formal report** cards are given out three times per year (November, March and June). This provides an opportunity to let parents know about their child or children's progression with respect to the attributes of the learner profile.
  - **Parent teacher interviews** are scheduled in the fall and as necessary throughout the year. These conferences provide a setting for the teacher and parent to review a wide range of topics relevant to an individual student. Students may participate in the conferences at the discretion of the teacher and parent. These conferences address the following topics:
    - discussion of the student's academic, social, emotional, and physical status
    - a formal review of current progress, strengths and areas to improve
    - an overview of academic subjects, IB unit progress and current activities and directions
    - goal setting
  - **Celebrations and exhibitions of learning.** A variety of celebrations or exhibitions are held at St. Anthony throughout the school year. These events provide opportunities for students to show parents, other students, and the community their final projects and to reflect on their learning growth. They may involve a variety of formats such as open houses, fairs, demonstrations, attribute assemblies, formal presentations, and other creative ideas developed by students and their teachers. Settings may also vary and include the classroom, steam room, gymnasium and daycare.
  - **Student-led conferences** are formal conferences where children are involved in discussing their work and progress with their parents. They are of particular value because the students reflect on their performance, select topics or work examples for focus, and share the responsibility of informing parents on their progress. Students, with the support and guidance of the teacher, select work to be discussed based on predetermined criteria. They rely heavily on the student portfolio, but may also include other work examples such as classroom stations or presentations conducted as part of the conference. Classroom time is set aside for students to reflect on their work and practice their presentations. The format of student-led conferences will evolve over time as the students embody the learner profile attributes.
  - **Student unit of inquiry reflection:** At the end of each unit of inquiry, students complete a reflection on their learning during the unit. This reflection may be written, drawn and/or recorded. It is then placed in students' PYP portfolios. It includes the following:
    - key learnings related to the central idea and transdisciplinary theme of the unit
    - questions and wonderings that the student had/has as a result of the unit
    - actions that the student was inspired to take and would like to take as a result of the unit
    - demonstration of specific learner profile attributes were focused on during the unit
    - application of PYP essential elements (knowledge, concepts, skills and action)

---

- **Unit of inquiry communication for parents:** Communication is sent home and posted on our school website at the beginning of each unit of inquiry to introduce the focus and aims of the unit to parents. This includes:

- description of the aspects of the transdisciplinary theme the unit explores
- the unit central idea and lines of inquiry that form the unit
- concepts and transdisciplinary skills being focused on during the unit
- central idea and summative assessment strategies and tools
- learner profile attributes being focused on during unit
- how parents can support student learning through the unit at home and at school
- involving the community as much as possible

- **Student IB Reflection:**

- Learner Profile Attribute reflection: Students are encouraged to reflect continuously on how they and others are displaying the learner profile. Formal reporting on student demonstration of the learner profile is incorporated in the report card comment at the end of each term.
- Approaches to learning reflection: Students will reflect continuously on the opportunities that occurred throughout the unit for transdisciplinary skills development.

- **Student portfolio** is an important part of the school's reporting procedures. It is a collection of evidence of student learning and progression throughout the PYP. It becomes a three-way communication tool between students, parents and teachers. The portfolio is shared at various times throughout the school year.

## Essential Agreements on Assessment

### Parent communication

*All teachers are expected to communicate the PYP and the Units within the Programme of Inquiry to the parents through:*

- curriculum evening at the beginning of the year
- coordinator's report at governing board meeting
- PYP information evening for grade one parents (2019-2020)
- class newsletters and/or emails
- administrative newsletter emailed to parents
- the school website
- use of online platforms such as Seesaw, Class Dojo, Google Classroom.
- open houses
- student-led conferences (Learning in Action)
- informal invitations (classroom and school-wide initiatives)
- student learning samples sent home for reflection
- student portfolios
- programme of inquiry bulletin board
- the learning tree
- the PYP coordinator will provide biannual information about the PYP using a range of communication strategies including newsletter articles and parent workshops.
- daily communications when necessary (agenda, phone call, email, notes, pochette (communication duo-tang))
- formal student reflection at the conclusion of each IB unit shared with parents

---

## Assessment

Assessment objectives are planned at the start of the unit and demonstrate clear links between the assessment tasks and all components of the planner including the central idea and lines of inquiry, key concepts, teacher and student questions and learning activities.

- Assessment strategies and tools are varied: pre- and post-assessment tasks, formative and summative assessments.
- Assessments include peer and self-assessment
- Students are involved in the development of some of the assessment activities and tools (e.g. rubrics). Students are informed of the assessment criteria if they are not involved in the developing the assessment activities.
- Assessment informs and directs future learning (formative).
- At the school level, we are working towards assessing elements of the PYP (knowledge, concepts, approaches to learning and action) and the learner profile.
- Teachers are familiar with the assessment policy of the school.

## Student-led conferences

- Students are involved in choosing what is shared with parents.
- Students address assessing elements of the PYP (knowledge, concepts, approaches to learning and action) and the learner profile. Teachers meet and greet parents and roam around the room throughout the conference.
- Classroom teachers and specialists collaborate to plan what is being shared.
- Invitations to student-led conferences are electronically distributed at least two weeks prior to the date selected.
- SLC dates need to be published in the school newsletter and calendar for future years.

## Portfolios

- Each student shares their learning portfolio at the student-led conferences.
- Portfolios provide information about the content of the unit and at least two work samples from each unit — one in English and one in French.
- Following each unit of inquiry, students select samples to include in the portfolio.
- Work samples from the specialists may be included in the portfolio.
- Portfolios may include a range of assessments and work samples
- Assessment samples may include peer and self-assessments
- Reflections

<ul style="list-style-type: none"><li>Only an overall Subject Mark will appear on each report card</li></ul>				
Geo., Hist. & Citizenship	Cycle 1	Cycle 2	Cycle 3	Types of Evaluations
Ability to understand different societies and their territories from a geographical and historical perspective, interpret changes that occur within a society and its territories, compare certain aspects of societies to appreciate their diversity.	NA	100%	100%	Tests, Quizzes, In-class and home assignments, Projects
<ul style="list-style-type: none"><li>The students' knowledge about each society will also be evaluated throughout the year</li><li>Only an overall Subject Mark will appear on each report card</li></ul>				

<b>Science &amp; Technology</b>	<b>Cycle 1</b>	<b>Cycle 2</b>	<b>Cycle 3</b>	<b>Types of Evaluations</b>
Ability to explain or solve scientific or technical problems, use scientific and technical tools, objects and procedures, communicate in the language used in science and technology.	NA	100%	100%	Tests, Quizzes, In-class and home assignments, Projects, Experimental Activities
<ul style="list-style-type: none"> <li>• <i>Knowledge of the Material World, Earth, Space and Living Things evaluated throughout year</i></li> <li>• <i>Only an overall Subject Mark will appear on each report card</i></li> </ul>				

## **Students with Special Needs**

Please note that some students with special needs are provided with an individualized program to meet their needs. Their programs, including the evaluation and reporting procedures, may differ from those described in these pages. The teachers, in collaboration with the school's resource department, develop Individual Education Plans (IEPs) that outline the individualized programs, strategies implemented as well as resource support measures.

<b>You will receive the following official communications</b>	
<b>Interim Report</b>	On October 15 <sup>th</sup> , you will receive the interim report card including comments on your child's learning and behavior.
<b>Term 1 Report Card</b>	The Term 1 Report Card will be issued on November 23 <sup>rd</sup> and will count for 20% of the final mark for the year.
<b>Term 2 Report Card</b>	The Term 2 Report Card will be issued on March 15 <sup>th</sup> and will count for 20% of the final mark for the year.
<b>Term 3 Report Card</b>	The Term 3 Report Card will be issued on June 21 <sup>st</sup> and will count for 60% of the final mark for the year.

## Report Card: How Results Are Determined

Term 1 20% of the Final Mark	Term 2 20% of the Final Mark	Term 3 60% of the Final Mark	Final Mark
<p>For Terms 1 and 2, the teacher enters a percentage mark that reflects the knowledge and competencies that a student has acquired - based on the evaluations carried out during the term (tests, assignments, etc.).</p> <p>In the case of English Language Arts, Mathematics and French, Second Language, a Subject Mark is calculated on the basis of the weightings assigned to the subject-specific competencies established by MEES (<i>see subject table on the first page</i>).</p> <p>MEES = Ministère de l'Éducation et de l'Enseignement supérieur</p>	<p>For the 3<sup>rd</sup> Term, the teacher enters a percentage mark that covers the student's learning for the term and where applicable, for the year as a whole, including any compulsory Board or MEES exams.</p>	<p><i>It is calculated using the results of the three weighted terms (20%, 20%, 60%) and the MEES exam results (if applicable).</i></p> <p><i>*The MEES exam counts for 20% of the Final Mark in grade 6 English Language Arts and Mathematics.</i></p>	

---

## **Other Report Card Information:**

### **Comments on Learning (by Subject)**

The report card will include a section for general teacher comments for each subject area. The comments will deal with the student's strengths, challenges and progress.

### **General Competencies**

The report cards will also include comments on the following general competencies at the end of the third term:

**Grade 1 Works in a team**

**Grade 2 Exercises Critical Judgement**

**Grade 3 Organizes his/her work and communicates effectively**

**Grade 4 Works in a team and exercises critical judgement**

**Grade 5 Communicates effectively and Exercises critical judgement**

-

If there are any changes made to the above evaluation and reporting information, an updated version of this document will be made available. For any more information concerning the evaluation of your child's learning, please contact the school.

## Appendix 2

### St. Anthony Evaluation Legend

<b>RATING SCALE DURING THE CYCLE</b>  (To be used ALL terms except for the June report card in Grades 2, 4 and 6)		<b>END OF CYCLE: COMPETENCY REPORT</b>  (To be used ONLY for the June report card in Grades 2, 4 and 6)	
<b>The Student</b>	<b>Range %</b>	<b>The Student has Demonstrated</b>	<b>Range %</b>
Exceeds the requirements for the term	90-100	Advanced competency development	90-100
Clearly meets the requirements for the term	75-89	Thorough competency development	75-89
Meets the requirements for the term to a limited extent	60-74	Acceptable competency development	60-74
Does not meet the requirements for the term	50-59	Partial competency development	50-59
Is well below the requirements for the term	49 and lower	Minimal competency development	49 and lower

has adapted beautifully to the kindergarten routine. She is an enthusiastic participant in all the activities that are presented to her. When working on her individual task,  understands well and is learning to differentiate work time from social time. She is able to think of and implement strategies that are helpful to her in order to reach her goals. With me, she is communicative and is able to express her needs and stories. Getting to know  during the past few weeks, has been a real pleasure!

Preschool Education	Term 1	Term 2	Term 3
Teacher : RENOUKA DUTTA			
Develops sensorimotor skills	B	B	B
Develops his/her personality	B	B	B
Relates well to others	B	B	B
Communicates orally	A	A	B
Becomes familiar with his/her environment	A	A	B
Completes projects or activities	B	B	B
Comments : ..... has had a great year in Kindergarten! She has met the expectations of the program with ease and is ready for grade 1. .... continues to participate actively during our group activities. She is enthusiastic about everything we do! She is focused and applies herself when working on her individual tasks and is able to finish in the given time. In French, ..... is able to communicate spontaneously and does so more often. Bravo! She also demonstrates an interest in reading in French. She is beginning to decode short words and is becoming familiar with combined sounds. In math, ..... seems a little less enthusiastic and sometimes needs more reflection time in order to work out strategies and concepts or recall numbers. Socially, ..... continues to work on her interpretation of other people's words and actions. She is making progress and is involved in less conflict situations. Bravo! With regards to the rules, ..... is generally respectful but will sometimes try to find ways around them when she really wants something. However, she is eager to please so she takes responsibility for her actions easily and is quick to apologize. During our last IB Unit, ..... was a good COMMUNICATOR when sharing facts about le pékan. She also frequently displayed a CARING attitude towards her peers and in her knowledge of how to demonstrate this Learner Profile Attribute towards nature and animals.			

Promotion to the next year
The student will move on to elementary school.  Principal's Signature :

#### Student's Strengths

Accepts support co-operatively  
Handles unstructured time well  
Academically capable  
Empathetic towards others.

#### Preferred Learning Style

Tactile / Kinesthetic Learner

#### Strategies

Provide instructional materials in a manageable format (ex: print 2 sided materials on 2 separate pages)  
Break assignments into shorter tasks  
Seat student closer to teacher  
Acknowledge and praise appropriate behaviour  
Provide time for self-calming strategies  
Model acceptable behaviour  
Role play appropriate behaviour  
Use of social stories  
Provide conflict resolution strategies  
Provide clear and predictable expectations and consequences  
Provide a private and voluntary "cool down" space  
Prepare students in advance for transitions (two-minute warning)  
Announce transitions well in advance  
Maintain matter-of-fact tone  
Prepare student for new setting or situation (social story, pre-visit, practice, etc.)  
Provide clear and predictable expectations  
Use of white board or Smart Board  
Seat student closer to the board  
Ask student to repeat or confirm directions  
Give individual instructions after the group instruction  
Provide additional opportunities for movement  
Cut hand-outs to allow for manipulation of information (i.e. for matching, sequencing, etc.)  
Make eye contact, keep hands and feet still, and have a quiet mouth to be a good listener  
Walk up to the person, wait for a pause in conversation and say "Excuse me..." when interrupting is necessary  
Walk up to a friend, wait for them to look at you, then ask "Do you want to play?"  
Look for signs (facial expression, body language) that other people are sad, angry or need help to show understanding for others' feelings  
When there is something new, talk about it, calm yourself, watch others, ask for an explanation, try it  
Provide integration aide support for social interactions at recess

#### Support
